BOSTAPH MAY BE VICE COMMANDER

W. M. Bostaph the well-known G. A. R. veteran of this city, is being mentioned as a candidate for vice commander-in-chief of the Grand Army of the Republic, an honor generally conferred on some candidate of the state in which the encampment is held. Mr. Bostaph is prominent in G. A. R. circles and will undoubtedly have a great many votes for his selection as vice-commander.

W. M. Bostaph is a Pennsylvania soldier; at the age of 16 years enlisted in 1861 in the One Hundred and Third regiment, Pennsylvania infantry volunteers; was in several of the hard-fought battles of the army of the Potomac; at Fair Oaks, Va., was severely wounded by a shot through the shoulder, resulting in paralysis of the right arm, and was honorably discharged. At the close of the war came west, and settled in Missouri, where

he held several responsible official positions, and was well known in Grand Army circles. He became a member of the Grand Army in 1882. Twenty years ago he came to Utah, where he is by profession a civil and hydraulic engineer, a master in his work. He has been connected professionally with many of the large irrigation and power enterprises that have in the last twenty years been developed all over this intermountain country where his character and ability are universally recognized and his services always in demand.

He has always been an active member of the Grand Army, serving as department commander of Utah in 1903, always attends the department and many of the national encampments.

Was in the delegation that attended the national encampment at Toledo, and invited the national encampment to come to Utah, and since then has been actively engaged in committee work arranging for the entertainment August 9 to 14 next.

ELLA GINGLES SAILS FOR HOME IN LARNE, IRELAND.

Chicago, Aug. 8.—Ella Gingles, the Irish lace maker, recently acquitted of

a charge of larceny after a most sensational trial, left this city today for her home in Larne, Ireland. She was accompanied by Mrs. Grace Van Dusen Cook. Many club women were at the station to say goodbye to Miss Gingles.

MORE ARTICLES OF INCORPORATION FILED

The Oakland & Orchard company, organized at Salt Lake and taking over 270 acres of land in Douglas county, Oregon, on which there is an indebtedness of \$6,572, in payment of 15,000 shares of the total capital stock of \$50,000, in dollar shares, filed articles of incorporation yesterday. There are 35,000 shares of treasury stock. Ralph Zwicky is president; A. J. Maclean, vice president; R. W. Rodgers, general manager and treasurer; John M. Hayes, secretary, and these, with Dr. F. E. Straup, are the directors.

The United Clear Stores company, a New Jersey corporation, filed articles with the secretary of state, naming Heber M. Wells as the Utah agent.

The Thompson-Anderson Mercantile company of Sugar House, which will carry on a general mercantile and meat business, filed articles Saturday. Capital is \$10,000, in shares of \$100 each. Edward H. Anderson is president; Edward H. Anderson, Jr., secretary; William Thompson, treasurer and manager, and these, with Elijah and Jennett Thompson, are the directors.

The American Fork Realty & Brokerage company incorporated Saturday by articles filed with the secretary of state. Capital is \$10,000, in dollar shares. Alma Greenwood is president; J. F. Noyes, vice president; George E. Hemphill, secretary and treasurer, and these, with J. W. Storrs and R. W. Gardner, are the directors.

The Springville Plumbing & Sheet Metal company of Springville, Utah, filed articles with the secretary of state Saturday. Capital is \$10,000, in shares of \$5 each, of which 200 are paid up by the taking over from W. W. Harrington, who is made secretary and treasurer, and W. F. Grimm, vice president, and gas fitters' supplies. The other officers are H. E. Lawrence, vice president, and Samuel Dallin and W. B. McPherson, additional directors.

SERIOUS DAMAGE AT POWER HOUSE AVERTED BY OPERATOR

The large nozzle in machine No. 1 at the Pioneer Power company's plant in Ogden canyon was stripped of its bolts for a length of about one yard and a half the other day and but for the timely action of Operator Charles B. Swan considerable damage would have been done not only to that machine but possibly to some of the others. The machine is used for the generation of power. The nozzle is under a pressure of 172 cubic feet per second. The water from the nozzle turns a large wheel six feet in diameter at the rate of 300 revolutions per minute, hence, when the bolts were stripped and a large piece taken out of the nozzle, it was dangerous to be anywhere around the machine. Swan quickly turned off the water and now a new nozzle is being placed in machine No. 1.

TURKEY MUST BE PREVENTED FROM TAKING ADVANTAGE.

Paris, August 8.—Great satisfaction is felt here that Germany is supporting the representations of the protective powers upon Turkey for the necessity of a peaceful solution of the Turkish-Greek dispute over Crete. The status quo existing at the time of the evacuation of Crete by the international troops alone was promised to Turkey and it is considered that energetic action is necessary at Constantinople in order to prevent Turkey from advancing fresh pretensions.

CHILDREN CREMATED.

Council, Idaho, August 8.—Two children of Thomas Daugherty were cremated late last night in a fire that destroyed the Daugherty home.

RECORD-BREAKING HOT WAVE IN PENNSYLVANIA.

Philadelphia, Aug. 8.—Pennsylvania is again sweltering under a record-breaking hot wave. Reports from both east and west of the Alleghenies tell of the suddenly oppressive heat. The temperature at Altoona and Johnstown reached ninety-six, the high record of the year.

ATTEMPTS TO KILL HIMSELF

JOHN C. BAKER FIRES FOUR SHOTS INTO HIS BODY.

Had Grown Dependent Over Business Cares—Is a Man of Large Family—Will Recover.

In his bed chamber at his home, 237 Twenty-eighth street, John C. Baker, attempted to kill himself by shooting, about 11 o'clock last night.

While in a fit of temporary insanity, he placed the muzzle of a revolver close to his heart and fired four shots. Two of the bullets passed through the muscles of his side and did no great injury, but the other two have not been located. He was attended by Dr. E. M. Conroy. Although in a critical condition today, his recovery is expected.

Members of the family rushed to his room when they were awakened by the shooting and found him lying on the bed in a pool of blood. Baker is thought to have worried himself into attempting to commit suicide over business affairs. Since getting out of the ticket brokerage business, in which he was very successful, he has met with reverses. It is said, and the continual thought of these matters made him despondent and tired of life. His family say they had noticed that he looked ill and troubled for several weeks.

Mr. Baker has been a resident of Ogden for many years and is well known here. He is married and has a large family. He is the proprietor of a billiard hall at 314 Twenty-fifth street.

REAL ESTATE TRANSFERS

The following real estate transfers have been filed for record in the office of County Recorder Wallace:

J. F. Campbell and wife to Caroline C. Campbell, the northeast quarter of section 29, township 7, range 1 west. Consideration \$100.

The Stephens Investment company to Edgar V. Ackerman, the west five feet of lot 6, block 3, Central Park addition. Consideration \$1.

CHINA ACCEDES TO DEMANDS OF JAPAN

Peking, Aug. 9.—The Chinese foreign board and the grand council have in a consecutive conference with Prince Chuan, the negotiator, on the Japanese situation since the issuance of Japan's note announcing her intention of proceeding with the construction of the Antung-Mukden railroad.

Laing Tun-Yen, the president of the board of foreign affairs, was received in audience by the prince regent yesterday and today. The regent showed great anxiety at Japan's attitude in coercion, which was supported by Great Britain, and he urged the foreign board to accelerate a settlement of the question in order not to provoke Japanese violence.

The Associated Press tonight learns that China has virtually conceded Japan's demand that the railroad be made of standard gauge, and is willing to accept any reasonable compromise, but is debarred from giving a treaty consent on account of Japan's suspicious attitude in forcing the gauge question, in claiming for the Antung line advantages existing on the South Manchurian railroad, and through her refusal to negotiate the latter question. Japan insisted on postponing consideration of the South Manchurian question when the Antung-Mukden railroad was re-opened.

The expansion of the Antung-Mukden railway commercially is opposed. Great Britain's support of Japan has made a deep impression on Chinese statesmen who point out that Great Britain's attitude developed simultaneously with the war scare in Europe. Extreme pessimism prevails in government circles. Higher officials say that, as Japan has British support, she supposes she can do what she likes.

PURCHASERS TO HAVE GUARANTEE

Washington, Aug. 8.—Purchasers of Philippine tobacco hereafter will have a government guarantee as to its quality and cleanliness, as a result of an arrangement made by the bureau of insular affairs with the Philippine government, designed to insure the strict enforcement of the new tariff bill providing for the admission into the United States, free of duty, of a limited quantity of cigars and tobacco produced in the islands.

All tobacco factories in the archipelago will, it was announced today, be closely observed by the island's internal revenue bureau and departments, so as to make certain the tobacco is of native growth.

Every package of Philippine tobacco or cigars imported into the United States will be labeled and the Philippine government will attach to each package a certificate indicating the quality of the material used and the class of workmanship.

PASSENGER TRAIN LEAVES THE RAILS

Pueblo, Colo., Aug. 8.—The chair car and smoker of Missouri Pacific passenger train No. 2, which leaves at 2:01 p. m. for St. Louis, went into the ditch at Avondale, twelve miles west of here, at 12:30 today. Five persons were injured. All will recover.

The injured: Ollie O. Moore, Pueblo, Lloyd Brown, Ordway, Colo. F. E. Rathbun, Piedmont, W. Va. Mr. Vergie Martin, Los Angeles. Mrs. L. E. Caperton, St. Louis. The cause of the wreck was spreading rails. While the Pullmans left the track they did not overturn.

A French doctor is reported to be making marvelous cures of nervous diseases by keeping his patient in absolute silence in apartments where everything, even the electric lights at night, is blue.

Illinois, Kentucky, Colorado and Arizona are the only states that produce fluorapatite in commercial quantities.

Pathetic Letters Written Read at Investigation.

(Continued from Page One)

Lieut. Adams. Mrs. Sutton wept quietly while her own words as to her son's death were being read.

After the reading of the letters, the reading of the record of Saturday showed Mrs. Sutton to have been asked many questions as to evidence in her possession to support her contentions. She referred to letters received by her from Miss Stewart, Prof. Coleman and others, and to the record of the first investigation as sufficient evidence.

The reading of the record concluded, Mrs. Sutton was cross-examined by Mr. Birney, and said she had received her information, relative to the wounds which she believed to have been suffered by her son, from the testimony at the first investigation.

Mr. Birney was still cross-examining when recess was taken.

FIRST AD SUTTON

All the letters of Mrs. Sutton, which were ordered made public and were addressed to Swartz, altogether make about 6,000 words.

In the first one she wrote: "I want to speak to you in confidence, but don't feel that I can do so until I hear from you. And if you were not Jimmie's friend, I will admire you the more for you to say so, than not to be, and make believe that you were. These brutes that killed him are alive and seemingly doing well, while my boy is dead five months today. Tell me I can trust you, and that you would have liked Jimmie, and I will write you."

In the second letter, written April 8, evidently in answer to Swartz's son says that "after Jimmie was killed, Captain Marks and Lieut. Utley took his keys and went through his trunk and everything. Can you tell me if they had a right to touch anything? To make it more horrible, Utley was with Adams and Osterman when Jimmie was killed. I believe he engineered that fight, that was all planned."

Mrs. Sutton then described the meeting of the officers at Carvel hall the night of the tragedy, and lays emphasis on the fact that while her son was talking to Miss Stewart and Dr. Coleman of the academy, Osterman and Adams withdrew and had a talk.

"Now, at one o'clock Sunday morning," the letter continues, "Jimmie was beaten to death. That shot was fired to hide the crime. His forehead was crushed, nose broken, lips cut open, teeth knocked out and an incision in the head half an inch long."

"Just think what my poor boy's suffering must have been as he was beaten to death by those wild beasts. Good God! Mr. Swartz, the world of wild men, and this on their own sworn testimony, and still they are walking the streets today while my poor boy lies in the grave stamped a suicide."

NO ABATEMENT IN LABOR CONFLICT

Stockholm, Aug. 9.—The opening of the second week of the labor troubles in Sweden shows no abatement of the conflict, and the men, already on strike, continue to augment their forces by the addition of sympathizers in other trades. A general strike of railroad men is threatened for August 11.

The Farmers' association today appealed to citizens of all classes to help them save the cereal crop, the harvesting of which is prevented by the strike of farm hands. The government supplemented this appeal by offering police protection to all persons assisting in the harvest.

Street cars are running on time in the capital and on all lines to Gothenburg, where the strikers have been replaced by the strike-breakers.

Stockholm, Aug. 8.—The tie-up of the business of the country as a result of the strike is so serious that King Gustave intervened in an endeavor to secure a compromise. The king today sent a message to the parties at conflict, exhorting them to agree at the earliest moment possible, and advising arbitration.

It was after King Gustave's message had been read and approved at a cabinet meeting Saturday that he summoned to the palace the two leaders of the warring factions, Dr. Von Lidov, president of the Federation of Trades Unions, and a conference.

The result of this conference has not yet transpired, but apparently the king's efforts for a peaceful solution of the trouble was without result, for tonight it was announced that the printers would strike tomorrow and the National Labor union has issued a proclamation that, beginning tomorrow morning, every day wagon whose driver is not wearing a union badge will be stopped by strikers.

No exception, it was stated, will be made for owners driving their own wagons.

The union further threatens to frustrate the attempt of the Stockholm street car company to start its cars on the important lines. More than 1,000 telephone and telegraph companies will strike Wednesday.

The employers' association is paying out 40,000 daily to support its weaker members.

The cash in the association treasury is sufficient to keep up this support for three weeks, and when the funds in the treasury are exhausted, the association has a reserve fund of \$4,500,000 which may be used. The strikers daily are receiving large contributions from Denmark, Norway, Germany, Roumania and Bulgaria.

A prominent journalist, Gustafson, has been summoned to court by the public prosecutor, charged with a crime against the penal code—that of exhorting the employees of the state railway to strike.

Seattle, Wash., August 8.—The annual congress of the American Prison Association will meet here next Saturday and will continue its sessions until August 19. Five hundred delegates are expected, including Judge Ben B. Lindsey of Denver, Cuban Minister Garcia, Mrs. J. Ellen Foster and Mrs. Samuel J. Barrows, whose husband was one of the founders of the association.

In the congress will be represented four national associations, those of the wardens, the chaplains, the physicians and the governing boards.

NEVIUS MET A HEARTY WELCOME

COMMANDER-IN-CHIEF GREETED BY MEMBERS OF LOCAL G. A. R.

Thousands at the Depot to Join in the Greeting—Little Girls Distribute Bouquets to Soldiers.

Five thousand people cheered as the train bearing General Henry M. Nevius, commander-in-chief of the Grand Army of the Republic, and his staff pulled into the Union depot at 6:30 o'clock, Saturday night. The Auditorium band played patriotic music, the members of Dix-Logan post stood at attention, enthusiastic citizens waved their hands and the spirit of welcome was everywhere manifested.

As soon as the train came to a stop, small girls, granddaughters of soldiers, carrying flowers, boarded the commander-in-chief's car and presented the old soldiers with beautiful bouquets. Attached to each bunch of blossoms was a card expressing a welcome to General Nevius from the ladies of Lincoln Circle, W. R. C.

After the commander-in-chief had received the flowers and spoken a few words of appreciation of the cordial greeting extended to him and his staff, he stepped to the depot platform and exchanged greeting with the members of the Dix-Logan post.

Although slightly weary from his long trip, General Nevius appeared to be in good health and ready for the strenuous work of the encampment.

LOCAL BREVITIES

Sneak Thief—A sneak thief grabbed Miss Orinda Woolley's purse, while she was returning home from work Saturday night and made a quick getaway with it and its contents, consisting of about \$2.00 in silver. Several persons saw the man snatch the pocketbook, and although they gave chase, the thief outran them, and has so far not been captured.

Peter Anderson Dead—After a week's illness, Peter Anderson, 73 years of age, and a resident of Kanab, died at the Ogden General hospital, at 11 o'clock this morning. The remains were taken to the C. J. A. Lindquist undertaking rooms to be prepared for burial at Kanabville.

Mrs. Lovey Dead—Mrs. Mary E. Lovey, mother of Alan L. Lovey, cartoonist, deceased, died in Butte, Montana, last Saturday. Mrs. Gutke of Ogden is a niece of Mrs. Lovey.

To Stop Amusements—Members of the Women's Christian Temperance union have started a crusade against the operation of places of amusement on the Sabbath. A letter addressed to the management of each of the moving-picture houses has been sent out, requesting that the houses be closed on Sundays and asking what reasons the owners have for remaining open on that day.

SPEAKER CANNON IS NOT TO RETIRE

Chicago, Aug. 9.—Speaker Joseph G. Cannon stopped off in Chicago last evening on his way home to Danville and disclaimed any intention of retiring from public life, as reported in New York dispatches.

"When I get ready to step out of office, I will say so, but up to date, I am making no such announcement," declared the speaker. "Also when my constituents get ready to have me retire they will not doubt say so. However, they have not given the words of answer. I am going back to Danville for a good rest. None of your chautauqs for me. They have wanted me to make the rounds with a speech this summer, but I have declined with thanks."

"I shall get well rested up and then go back to Washington in the winter and run a little chautauqua of my own."

PRATICAL JOKERS ARE BADLY "STUNG"

Aspenwall, Penn., Aug. 9.—The friends of Stephen Swartz yesterday discovered that the contents of a beer barrel sometimes sting like 500 adders.

Swartz has often been the butt of practical jokes. Yesterday he telephoned for his friends to join him in disposing of a barrel of Sultz near town.

On arrival, the friends found Swartz sitting on a keg with a large ice cake on top. Steve asked another to pour and excused himself for a moment.

Unable to resist the temptation until Steve's return, a guest pulled the stopper from the keg and loosed two pecks of mad bees into the air. Five hundred stings were inflicted on Swartz's friends inside the next two minutes. The bees had been imprisoned by Steve while they were swarming yesterday.

WILL COMPETE WITH THE CANADIAN PACIFIC

Seattle, Aug. 8.—The Chicago, Milwaukee and Puget Sound railway, in connection with the Osaka Shosen Kaisha, has entered into active competition with the Canadian Pacific in bidding for through freight to the Orient and for cargo originating in the far east.

When its tariff was published the Milwaukee announced a through rate of one dollar per hundred pounds on machinery from Chicago to the Orient. The Canadian Pacific's rate on this commodity was \$1.40. The cut was met at once. The Milwaukee also published a flat rate of \$1.50 per hundred pounds on the entire classification of merchandise, which includes practically all westbound freight with the exception of silverware, plated ware, ginseng, automobiles, bicycles and jewelry. This rate was also promptly met by the Canadian Pacific.

The Chicago, Milwaukee and Puget Sound road does not interpret an interstate commission ruling on this matter to mean that railroads must not quote lower rates for exports and imports than for domestic cargo. The members of the transcontinental freight bureau, of which the Great Northern and Northern Pacific are members, have taken the opposite view, lest the export rates be used as a basis for domestic tariffs.

American engineers are figuring on a project for connecting the Mediterranean sea at Saloniki and the Danube river with a ship canal, with an ultimate connection thence via Austria and Germany to the North sea.

When on a holiday for a few days you'll meet a bunch of other people with time to observe and criticize—a special suit held in reserve for such occasions is a good idea.

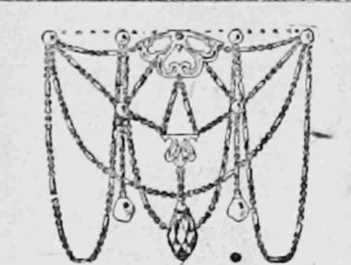

For \$15 here's one of gray worsted that will place the wearer in the successful men class.

For \$13.50 a good blue serge that looks like money in the bank.
